

CONNECTION TO RESOURCES & CARE COORDINATION

One of the key priorities identified in the South Dakota Opioid Strategic Plan was to establish a resource hotline and supporting database that could be used to connect individuals with information specific to opioid use and available treatment resources. The Helpline Center created and now manages the Treatment Resource Hotline as well as an Opioid Texting Support Program and searchable online database. Support for those affected by substance misuse is available through the Care Coordination Program, also managed and staffed by The Helpline Center.

Individuals struggling with substance misuse, or those affected by someone else's suspected misuse, are encouraged to connect with the Care Coordination Program. The Program:

- Assists individuals with connection to treatment options, counseling and supports based on needs identified.
- Provides supportive phone calls.
- Connects individuals to community resources that remove or reduce barriers to wellness; i.e. housing, transportation, employment.

STRATEGIES

Answer all calls to the Treatment Resource Hotline, and provide support, crisis intervention, information, and referrals to resources as needed. Manage statewide Opioid Texting Support Program.

Develop and maintain a searchable online database that includes statewide resources for awareness, education, and treatment, housed on www.AvoidOpioidSD.com.

Connect those seeking assistance regarding substance misuse to resources through Care Coordination services.

The Treatment Resource Hotline has received more than 1,900 contacts.

The Treatment Resource Hotline is available statewide and answered 24/7 by trained crisis specialists.

Care Coordination is offered statewide to connect individuals to resources and support.

If you or someone you know is struggling with opioid addiction – don't wait. Reach out.
