

TREATMENT FOR OPIOID USE DISORDER

Expanding access to Medications for Opioid Use Disorder (MOUD) is a priority for both South Dakota and the nation in combating the opioid crisis. MOUD is the use of medications, in combination with counseling and behavioral therapies, to provide a “whole patient” approach to the treatment of opioid use disorder. Medications used are approved by the Food and Drug Administration and MOUD programs are clinically driven and tailored to meet each patient’s needs.

KEY PARTNERS:

- Center for Family Medicine
- Lewis & Clark Behavioral Health Services
- Project Recovery
- Minnehaha County Jail

AS OF
OCTOBER 2023...

CAPACITY BUILDING EFFORTS TO DATE

Center for Family Medicine

Building upon its existing education and training program for family medicine residents, pharmacy students, and medical staff, Center for Family Medicine increased their training and staff capacity to support a weekly MOUD clinic in Sioux Falls.

Project Recovery

Stephen Tamang, MD, began treating addiction through Monument Health in 2017. In 2018, he founded Project Recovery, utilizing technology and evidence-based medicine to treat opioid use disorder. Project Recovery provides office-based MOUD in the Rapid City area. Project Recovery also provides services via telemedicine.

Lewis & Clark Behavioral Health Services

Recognizing a lack of MOUD options in their service area, Lewis & Clark Behavioral Health Services created a program centered on expanding its existing comprehensive substance use treatment continuum of care via office-based patient services for MOUD. The program expanded access to MOUD in 2020 by utilizing telehealth with numerous partners across the state.

Minnehaha County Jail

Leadership at Minnehaha County Jail identified a need to better coordinate and provide care for individuals impacted by opioid use while incarcerated. Through partnership with a waived provider and external case management services, Minnehaha County Jail now provides MOUD to individuals, and works to ensure their re-entry back to community involves continued care coordination and treatment services in support of long-term recovery.

More than 2,500 individuals have been provided treatment cost assistance as part of their Medication for Opioid Use Disorder treatment among contracted providers through State Opioid Response funding, managed by DSS.

All state contracted substance use disorder treatment agencies are MOUD-capable.

If you or someone you know is struggling with opioid addiction – don't wait. Reach out.
